FOREWARD

This is the 26th edition of the Uniform Crime Report as prepared by the Michigan Department of State Police. Users of this report are reminded that the data conveyed in this publication depicts only that reported to the Uniform Crime Reporting Program and does not purport to identify the total crime picture within the state.

The format of this year's report is virtually identical with that of last year's. This was done to add stability to its style, and further to aid its users when making comparisons of previous year's data.

We wish to thank the 592 contributing law enforcement agencies for their cooperation, and trust the information contained in this report will prove of value to all who are concerned with the critical problem of crime in our state.

CRIME REPORTING IN MICHIGAN

THE MICHIGAN UNIFORM CRIME REPORTING SYSTEM

Michigan began its program to collect crime statistics from around the State in 1959 when the State Police requested each police and sheriff's agency to voluntarily submit crime data to its headquarters for purposes of forming the report. The number of participating agencies was rather small in the beginning, with participants tending to be in the larger departments. Enactment of Michigan Public Act 319 of 1968 greatly spurred the growth of the program by making the submission of the data mandatory. Smaller agencies began to increase participation since that time, and the data in this volume represents activity reported by 576 agencies.

Before using this report, it may be helpful to the reader to review the following general information regarding the UCR System:

(1) The crime figures presented in this issue are "police statistics" and are distinguished in this manner so that they are not confused with judicial or penal statistics.

(2) Crimes reported represent violations of Michigan statutes and local ordinances.

(3) Each reporting agency counts only those crimes or arrests for crimes committed within its jurisdiction.

(4) Offenses reported to the police are divided into Index and Non-Index offenses as outlined below.

(5) Offenses are compiled at the end of the month during which they became know. The police may become aware of the crime in several ways: reports of police officers, citizens' complaints, notification from the prosecuting attorney, court officials, or in some other manner.

(6) Offenses are included without regard to a) age of offender, b) value of property involved, c) recovery of stolen property, d) arrests, or e) action by prosecution.

(7) Complaints that are found by the police to be unfounded are not included in the crime tables even though as much time is often consumed on verification of the offense as there is in a solution.

Interpretation of the meaning of the terms **"Index"** and **"Non-Index"** crimes can be aided by a review of the following brief listing of general crimes included in each category:

ACT 319

PUBLIC ACTS 1968 (as amended)

AN ACT to provide a uniform crime reporting system; to provide for the submitting of such report to the department of state police; to require submission of the report by certain police agencies; to require the reporting on wanted persons and stolen vehicles; and to vest the director of the department of state police with the authority to prescribe the reporting form and its contents.

The people of the State of Michigan enact:

Sec. 1. The police department of each city or village, any duly constituted police department of a township, and the sheriff's department of each county, once each month upon a date and form prescribed and furnished by the director of the department of state police, shall forward to the department of state police a crime report. Each reporting department shall report only on cases within its jurisdiction and upon which it is making, or has made, the primary police investigation. The report shall be called the uniform crime report and shall cover crimes reported and otherwise processed during the month preceding the month of the report. It shall contain the number and nature of offenses committed, the disposition of such offenses and such other information as the director of state police shall specify relating to the method, frequency, cause and prevention of crime. Under no circumstances shall the name of any person be reported.

Sec. 2. Upon receipt of the monthly uniform crime reports from the reporting agencies, the department of state police shall prepare a statewide compilation of the statistics contained therein and the resulting statistical compilation shall be available to any governmental law enforcement agency in the state, the judiciary committees of the Michigan state senate and the Michigan state house of representatives, and the federal bureau of investigation, upon request. The statistics made available through the uniform crime report shall be used for the purpose of studying the causes, trends and effects of crime in this state and for intelligence upon which to base a more sound program of crime detection and prevention and the apprehension of criminals.

Sec. 3. Any governmental police agency, not falling within the description of those required to submit the monthly uniform crime report set forth in section 1, which desires to submit such a report, shall be furnished with proper forms by the department of state police. When a report is received by the department of state police from a governmental police agency not required to make such report, the information contained therein shall be included within the monthly compilation provided for in section 2.

Sec. 4. The chief of police of each city or village and of each township having a police department, and the sheriff of each county within this state, shall report to the department, all persons wanted by, and all vehicles stolen from, their primary police jurisdictions. The report shall be made as soon as is practical after the investigating department either ascertains that a vehicle is stolen or obtains a warrant for an individual's arrest or determines that they have reasonable grounds to believe that the individual committed a crime. In no case shall this time exceed 12 hours after the reporting agency determines that it has grounds to believe that a vehicle was stolen or that the wanted person should be arrested.

Sec. 5. When at any time after making a report required by section 4 it is determined by the reporting agency that a person is no longer wanted because of this apprehension, or any other factor, and when a vehicle reported stolen under section 4 is recovered, the chief of police or sheriff of the reporting agency shall immediately notify the department of state police in a manner prescribed by the department.

Sec. 6. The provisions of this act do not apply to misdemeanor traffic offenses, or for the violation of any city, village or township ordinance. The provisions of this act shall not be construed to in any way affect existing or future laws and procedures governing the reporting of persons wanted for traffic law violations or for the violation of city, village or township ordinances.

Sec. 7. The chief of police of each city or village, the chief of police of each township having a police department, and the sheriff of each county within this state shall report to the department of state police, in a manner prescribed by the department, the following information related to crimes of domestic assault:

(a)The number of assaults reported which involve an adult and a minor and the disposition of those offenses.

(b)The number of assaults reported which involve 2 male adults or 2 female adults and the disposition of those offenses.

(c)The number of assaults reported which involve 1 male adult and 1 female adult and the disposition of those offenses.

(d)The number of assaults reported which involve a person and his or her spouse and the disposition of those offenses.

(e)Other statistics the director of the department of state police considers necessary to obtain accurate and reliable data on the incidence of domestic assault in this state.

COMMENTARY ON 1984 CRIME DATA

1. REVISED DEFINITION FOR RURAL CRIME

Because the demographics of the 80's are significantly different than those of the 50's and 60's, the Uniform Crime Reporting Program revised the criteria used to differentiate between urban and rural crime. Users of this report should take special notice of this change when comparing 1984 rural activity to any reported in previous years.

Beginning with the 1984 release, rural crime is defined as all activity not reported by the following:

1. A law enforcement agency servicing an area that is within a designated urbanized area, irregardless of the size of its service population or type of agency.

2. A township police department servicing an area that may only partially be included in an urbanized area, but with a population density of at least 500 persons per square mile.

3. A municipal police department outside urbanized areas with a population of 5,000 or greater (EXCEPTION: a municipal department with a service population of less than 5,000, with boundaries that are adjacent to a municipality with a population of 5,000 or greater).

4. A campus police department with a service area located in a municipality designated as urban, or with a student population of 5,000 or more.

2. GENERAL INFORMATION REGARDING CRIME RATES

The term "crime rate" refers to a figure that represents the number of crimes reported for each 100,000 population. It is intended as a measure of the severity of a crime problem within a given jurisdiction. To calculate this rate, the number of offenses is multiplied by 100,000 and then divided by the jurisdiction's service population which is based on 1980 census figures.

When using this rate for making comparisons, it should be kept in mind that certain large cities and tourist areas report crime that may be the result of transient populations. The crime rates for these areas do not reflect these special populations.

Also, student populations for colleges and universities are used only to compute the crime rate for the facility, and not for county and total state rates.

3. FORMAT CHANGE

The format of this year's publication has been changed to include 1983 county totals. These figures may differ from the 1983 Uniform Crime Report publication due to updates of 1983 data received in 1984.

MICHIGAN CRIME IN A NUTSHELL

Total reported crime increased .5% in 1984 showing a slight decrease to 1983, which was 1%. The crime rate for total crime was 12,861 per 100,000 population, or one reported crime for every 8 Michigan residents.

In contrast to total reported crime, Index crime decreased 1%. This decrease is actually the result of Murder decreasing 6%, Burglary decreased 6%, Larceny decreased 4% and Aggravated Assault which decreased .6%. Increases are observed in all other Index crime classifications with the largest increase being in Rape at 25%, followed by Motor Vehicle Theft increasing 16%, Arson with 15%, and Robbery with 6%. The Index crime rate was 6,505 per 100,000 population, or one reported crime for every 16 Michigan residents.

Geographically, Michigan's 1% decrease in Index crime was lower than the nationally released figures for the Midwest Region at 5% and the nation at 7% decreases.

Total arrests for 1984 showed a 7% increase which remains the same as in 1983. Juveniles (under age 17) accounted for 11% of those arrested as compared to 1983 showing 12% of the arrested being Juveniles.

POPULATION PYRAMIDS

A population pyramid is intended to graphically show the distribution of persons by age and sex. The theoretical pyramid shows an equal number of males and females with fewer individuals in each successive age cohort. Each bar shows the percent of the total in that age cohort, male and female, and the total of all the bars is 100%.

The pyramids displayed at the bottom show the characteristics of Michigan's 1983 and 1984 Total Arrests. When these pyramids are compared, we find that the 1984 male age cohort representing the arrestees in the 15-19 age group has decreased significantly, 25-29, 30-34, 35-39 and 40-44 have increased slightly, all other age groups show only minimal change.

The 1983 and 1984 female age cohorts show the 15-19, 20-24 and 25-29 ages decreased slightly with the other age groups showing only minimal change.

FOREWARD

This is the 27th edition of the Uniform Crime Report as prepared by the Michigan Department of State Police. Users of this report are reminded that the data conveyed in this publication depicts only that reported to the Uniform Crime Reporting Program and does not purport to identify the total crime picture within the state.

The format of this year's report is virtually identical with that of last year's. This was done to add stability to its style, and further to aid its users when making comparisons of previous year's data.

We wish to thank the 596 contributing law enforcement agencies for their cooperation, and trust the information contained in this report will prove of value to all who are concerned with the critical problem of crime in our state.

CRIME REPORTING IN MICHIGAN

THE MICHIGAN UNIFORM CRIME REPORTING SYSTEM

Michigan began its program to collect crime statistics from around the State in 1959 when the State Police requested each police and sheriff's agency to voluntarily submit crime data to its headquarters for purposes of forming the report. The number of participating agencies was rather small in the beginning, with participants tending to be in the larger departments. Enactment of Michigan Public Act 319 of 1968 greatly spurred the growth of the program by making the submission of the data mandatory. Smaller agencies began to increase participation since that time, and the data in this volume represents activity reported by 576 agencies.

Before using this report, it may be helpful to the reader to review the following general information regarding the UCR System:

(1) The crime figures presented in this issue are "police statistics" and are distinquished in this manner so that they are not confused with judicial or penal statistics.
(2) Crimes reported represent violations of Michigan statutes and local ordinances.
(3) Each reporting agency counts only those crimes or arrests for crimes committed within its jurisdiction.
(4) Offenses reported to the police are divided into Index and Non-Index offenses as outlined below.
(5) Offenses are compiled at the end of the month during which they became known. The police may become aware of the crime in several ways: reports of police officers citizens' complaints, notification from the prosecuting attorney, court officials, or in some other manner.
(6) Offenses are included without regard to a) age of offender, b) value of property involved, c) recovery of stolen property, d) arrests, or e) action by prosecution.
(7) Complaints that are found by the police to be unfounded are not included in the crime tables even though as much time is often consumed on verification of the offense as there is in a solution.

Interpretation of the meaning of the terms "Index" and "Non-Index" crimes can be aided by a review of the following brief listing of general crimes included in each category:

ACT 319

PUBLIC ACTS 1968 (as amended)

AN ACT to provide a uniform crime reporting system; to provide for the submitting of such report to the department of state police; to require submission of the report by certain police agencies; to require the reporting on wanted persons and stolen vehicles; and to vest the director of the department of state police with the authority to prescribe the reporting form and its contents.

The people of the State of Michigan enact:

Sec. 1. The police department of each city or village, any duly constituted police department of a township, and the sheriff's department of each county, once each month upon a date and form prescribed and furnished by the director of the department of state police, shall forward to the department of state police a crime report. Each reporting department shall report only on cases within its jurisdiction and upon which it is making, or has made, the primary police investigation. The report shall be called the uniform crime report and shall cover crimes reported and otherwise processed during the month preceding the month of the report. It shall contain the number and nature of offenses committed, the disposition of such offenses and such other information as the director of state police shall specify relating to the method, frequency, cause and prevention of crime. Under no circumstances shall the name of any person be reported.

Sec. 2. Upon receipt of the monthly uniform crime reports from the reporting agencies, the department of state police shall prepare a statewide compilation of the statistics contained therein and the resulting statistical compilation shall be available to any governmental law enforcement agency in the state, the judiciary committees of the Michigan state senate and the Michigan state house of representatives, and the federal bureau of investigation, upon request. The statistics made available through the uniform crime report shall be used for the purpose of studying the causes, trends and effects of crime in this state and for intelligence upon which to base a more sound program of crime detection and prevention and the apprehension of criminals.

Sec. 3. Any governmental police agency, not falling within the description of those required to submit the monthly uniform crime report set forth in section 1, which desires to submit such a report, shall be furnished with proper forms by the department of state police. When a report is received by the department of state police from a governmental police agency not required to make such report, the information contained therein shall be included within the monthly compilation provided for in section 2.

Sec. 4. The chief of police of each city or village and of each township having a police department, and the sheriff of each county within this state, shall report to the department, all persons wanted by, and all vehicles stolen from, their primary police jurisdictions. The report shall be made as soon as is practical after the investigating department either ascertains that a vehicle is stolen or obtains a warrant for an individual's arrest or determines that they have reasonable grounds to believe that the individual committed a crime. In no case shall this time exceed 12 hours after the reporting agency determines that it has grounds to believe that a vehicle was stolen or that the wanted person should be arrested.

Sec. 5. When at any time after making a report required by section 4 it is determined by the reporting agency that a person is no longer wanted because of this apprehension, or any other factor, and when a vehicle reported stolen under section 4 is recovered, the chief of police or sheriff of the reporting agency shall immediately notify the department of state police in a manner prescribed by the department.

Sec. 6. The provisions of this act do not apply to misdemeanor traffic offenses, or for the violation of any city, village or township ordinance. The provisions of this act shall not be construed to in any way affect existing or future laws and procedures governing the reporting of persons wanted for traffic law violations or for the violation of city, village or township ordinances.

Sec. 7. The chief of police of each city or village, the chief of police of each township having a police department, and the sheriff of each county within this state shall report to the department of state police, in a manner prescribed by the department, the following information related to crimes of domestic assault:

(a)The number of assaults reported which involve an adult and a minor and the disposition of those offenses.

(b)The number of assaults reported which involve 2 male adults or 2 female adults and the disposition of those offenses.

(c)The number of assaults reported which involve 1 male adult and 1 female adult and the disposition of those offenses.

(d)The number of assaults reported which involve a person and his or her spouse and the disposition of those offenses.

(e)Other statistics the director of the department of state police considers necessary to obtain accurate and reliable data on the incidence of domestic assault in this state.

COMMENTARY ON 1985 CRIME DATA

1. REVISED DEFINITION FOR RURAL CRIME

Because the demographics of the 80's are significantly different than those of the 50's and 60's, the Uniform Crime Reporting Program revised the criteria used to differentiate between urban and rural crime. Users of this report should take special notice of this change when comparing 1984 and 1985 rural activity to any reported in previous years.

Beginning with the 1984 release, rural crime is defined as all activity not reported by the following:

1. A law enforcement agency servicing an area that is within a designated urbanized area, irregardless of the size of its service population or type of agency.

2. A township police department servicing an area that may only partially be included in an urbanized area, but with a population density of at least 500 persons per square mile.

3. A municipal police department outside urbanized areas with a population of 5,000 or greater (EXCEPTION: a municipal department with a service population of less than 5,000, with boundaries that are adjacent to a municipality with a population of 5,000 or greater).

4. A campus police department with a service area located in a municipality designated as urban, or with a student population of 5,000 or more.

2. GENERAL INFORMATION REGARDING CRIME RATES

The term "crime rate" refers to a figure that represents the number of crimes reported for each 100,000 population. It is intended as a measure of the severity of a crime problem within a given jurisdiction. To calculate this rate, the number of offenses is multiplied by 100,000 and then divided by the jurisdiction's service population which is based on 1980 census figures.

When using this rate for making comparisons, it should be kept in mind that certain large cities and tourist areas report crime that may be the result of transient populations. The crime rates for these areas do not reflect these special populations.

Also, student populations for colleges and universities are used only to compute the crime rate for the facility, and not for county and total state rates.

3. *ARSON ADJUSTMENT

An adjustment has been made in the Arson crimes published for 1984 as the figures received for Detroit were inflated, due to all suspicious fires being reported rather than only actual arsons. This results in a decrease of Arson, Index and the Total State Crime statistics for 1984.

MICHIGAN CRIME IN A NUTSHELL

Total reported crime increased 2.0% in 1985, compared to a .2% increase for 1984. The crime rate for total crime was 12,929 per 100,000 population, or one reported crime for every 8 Michigan residents.

In contrast to total reported crime, Index crime decreased 1.7% over the previous year. The Index crime rate for 1985 was 6,287 per 100,000 population, or one reported crime for every 16 residents.

This decrease is actually the result of Robbery decreasing 4%, Burglary decreasing 6.4%, Motor Vehicle Theft decreased by 3.7% and *Arson with 14%. Increases are observed in all other Index crime classifications with Murder increasing by 17.8%, Rape increased 7.8%, Aggravated Assault at 6.9% and Larceny .6%.

Total arrests for 1985 showed a decrease of 1.6%. Juveniles accounted for 11.9% of those arrested.

*An adjustment has been made in the Arson crimes published for 1984 as the figures received for Detroit were inflated to show all suspicious fires rather than only arsons. This results in a decrease of Arson, Index and the Total State Crime statistics for 1984.

POPULATION PYRAMIDS

A population pyramid is intended to graphically show the distribution of persons by age and sex. The theoretical pyramid shows an equal number of males and females with fewer individuals in each successive age cohort. Each bar shows the percent of the total in that age cohort, male and female, and the total of all the bars is 100%.

The pyramids displayed at the bottom show the characteristics of Michigan's 1984 and 1985 Total Arrests. When these pyramids are compared, we find that the 1985 male age cohort representing the arrestees in the 20-24 age group has increased slightly, 30-34, and 35-39 have decreased slightly, all other age groups show only minimal change.

The 1984 and 1985 female age cohorts shows only minimal change in all age groups.
